Interior:	Black

Specifications

The Corvette is America's only sports car with a heritage going back for over 50 years. Its iconic status is even greater than our Jaguar E Type as it has remained a production model for over 50 years. This 1960 example is incredibly special as it has had 2 owners from new and has covered just 74500 miles.

Originally purchased from Heinrich Motors of Rochester New York by a certain A Leland Zwick. who kept it for 40 years until he sold it in 2000 at the age of 95. The vehicle has a complete service history file with copies of every single service carried out both during Mr Zwick's ownership and the second owner. We have copies of receipts, copies of the owner's driving licences! This was the last Corvette designed by Harley Earl and it does resemble the 1956 launch model. It has not been extensively restored and modified to a fantastic specification other than a repaint in 2003 this is a very original car and has been maintained regardless of expense The original 283 cu in engine produces 230 hp and the equally original 4 speed transmission,

A thoroughly usable classic 'Vette with a provenance and history that are hard to better. Affordable investment at £799950
